EDUCATION

JANUARY 2018

COMPUTER SOFTWARE ENGINEER, THADDEUS STEVENS COLLEGE OF TECHNOLOGY

Currently still a student, I have worked with quite a lot of programming tools already. Here I have been in dedicated programming classes for 22 hours a week since I enrolled last spring. Throughout this experience, learning new and difficult concepts has proved incredibly rewarding and fun. I have been involved in a lot of co-op programming projects that you can see on my GitHub page. I am looking forward to learning and growing more as a developer.

SKILLS

- HTML
- CSS
- JavaScript
- PHP
- Object Oriented Programming
- Communication and Collaboration

- Python
- Git and GitHub
- PostgreSQL and SQL
- Terminal
- Development workflows (agile/waterfall)
- Eagerness to learn and tackle new concepts.

WORK EXPERIENCE

FREELANCING EXPERIENCE

LANCASTER LAUNDRY WORKS, REFUGE CHRISTIAN FELLOWSHIP

I have had the privilege over the past year to build websites for two local companies. I've utilized my skills in JavaScript, HTML, CSS, and Git to create not only a commercial website for Lancaster Laundry Works; but also, a free-of-charge website for a local nonprofit church. Improving my semantics, syntactical knowledge, and workflow with each successive project.

10/20/2015 – CURRENT DAY

SUPERVISOR, CUSTOMER SERVICE REPRESENTATIVE

SHADY MAPLE FARM MARKET

At this job I find myself leading groups of up to 40 employees at one time. Managing money, schedules, problems, and customer needs. I have learned so much about time management, managing and communicating with co-workers, and speaking directly with customers to understand and solve their problems.
